Full Featured CRM Solution on a Handheld Device

Sage CRM SalesLogix Mobile allows you to view, edit, and add contact and account details, take notes, schedule meetings, complete activities, update opportunities, and review ticket information, all from a handheld device. You can easily access key customer information using quick lookups or filtered searches. Sage CRM SalesLogix Mobile enables account, contact, opportunity, and ticket management from handheld devices so employees always have access to the most up to date customer information, whether in the office or on the road.

Rich End-User Experience

Since Sage CRM SalesLogix Mobile replicates familiar Sage CRM SalesLogix functions on both Pocket PC and Blackberry devices, it's easy to get up and running quickly. Sage CRM SalesLogix Mobile offers incredible speed and performance. Rich features such as one-click dialing or e-mailing from contact or activity records, handwriting recognition, and integration with Pocket Outlook enable users to get the most from Sage CRM SalesLogix, while taking advantage of the convenience and productivity afforded by their handheld devices.

The Information You Need, How You Need It

Many Sage CRM SalesLogix customers tailor the solution to meet their unique business requirements. In addition to basic contact and account information, with Sage CRM SalesLogix Mobile, you can access data from custom tables, extensions, pick lists, and other customized fields. The mobile application can also be easily customized using visual drag-and-drop design tools.
